# *Processional in Bm*

Ted Greene, 1968

Commentary by David Bishop

Paul asked me if I thought that the “Processional in Bm” was a “Ted original” and I responded that I am sure it is (that is, I’m sure it wasn’t composed in the Baroque era). Although it shows that Ted possessed a deep understanding of the Baroque-style harmonic language early in his career (1968), there are a number of stylistic idiosyncrasies that point to someone who also possessed an understanding of more modern harmonic use (and who didn’t mind relaxing some of the voice leading “rules” from that earlier era). Nevertheless, it’s a charming piece and a joy to play.

Although the piece is in Bm, it does touch on a number of closely related keys, just as you would expect any good Baroque composer to do. These are D (mm. 3–6), back to Bm (mm. 7–10), back to D (mm. 11–12), G (mm. 12–15), another hint of D (m. 16), Em (mm. 17–19), setting up the return to Bm (mm. 19–22). The actual return to the tonic Bm doesn’t occur until m. 22, but is expected in m. 21, only to be delayed by the unexpected arrival of the E7 on the downbeat of m. 21 (which is why I personally prefer the G# over the alternate G-natural).

Although there are a number of interesting harmonic details that I could discuss in this piece, one stands out, and I think it shows the breadth of Ted’s knowledge of the Baroque literature. It appears during the wonderful chromatic lead-up to the cadence on Bm in m. 22 (this build-up of tension right before the cadence is typical in this style). In m. 21, beat 3, we hear what is best described as a G7#11/F (the missing—and defining—note is a B, which is still floating in the ear from the previous chord). From a modern viewpoint, this is a substitute dominant of F# (the V chord), albeit in an unusual inversion. But it is this unusual inversion that makes this chord so interesting from a Baroque viewpoint.

In classical harmony this is an “augmented sixth” chord, which was more often used in the classical era and beyond as an approach chord to the dominant. It does appear in Baroque works but to a lesser extent. This chord would normally be voiced so that it approaches the V from a half-step above (if this were the case here, G would be in the bass, with the F-natural [spelled as E#] placed somewhere above), rather than a half-step below, as here. I know of only one Baroque piece—a very famous one—that does contain this chord in such an unusual inversion, as an approach to the V from a half-step below: Bach’s Mass in B minor. (For those with access to the score, it appears as the last chord in m. 51 [the third bar from the end].) It is even itself approached by a half-step below, just as in Ted’s piece.

If there were ever any doubt that Ted knew his Baroque literature well, I think this confirms that he did. Otherwise, we’d have to accept that Ted simply “thought as Bach would” at this point...which, when considering Ted’s immense talent, may not be such a stretch at all!

~David

TRY TUNING  
ALL STRINGS UP AT  
LEAST A WHOLE STEP,  
THEN TUNE 6th to D  
FROM THERE.

# PROCESSIONAL IN Bm

SPRING 68

Handwritten musical notation for the first system of 'PROCESSIONAL IN Bm'. It consists of a treble clef staff with a key signature of one sharp (F#) and a 4/4 time signature. The melody is written in eighth and sixteenth notes. The bass staff shows a series of chords, with a '6' written at the end of the system.

Handwritten musical notation for the second system of 'PROCESSIONAL IN Bm'. It continues the melody and bass line from the first system. A '7' is written below the bass staff in the middle of the system, and a '12' is written at the end.

Handwritten musical notation for the third system of 'PROCESSIONAL IN Bm'. It continues the melody and bass line. A '17' is written at the end of the system.

Handwritten musical notation for the fourth system of 'PROCESSIONAL IN Bm'. It continues the melody and bass line. A '22' is written at the end. There are handwritten annotations: 'open' with an arrow pointing to a note, 'Bret' with a bracket above a group of notes, and 'DE 9, G#' with an arrow pointing to a note in the bass staff.
